The **Best** choice
for your **Health**

INNTOP CO.,LTD.

About Inntop

"We promise to do our best to ensure your health and happiness."

Since February 22 when it began the production of eco-friendly and skin health products, Inntop Co. has introduced core technology and development related to skin moisturization, dead skin cell removal, and additional skin care through continuous investment in research and development. We have now reached the stage for developing and producing weight loss products for weight reduction and body lipolysis for the treatment of obesity by introducing Paraffin wax through new and advanced technology.

With the development of advanced technology, the function of Paraffin, which was once used only for medical purposes in the fields of dermatology and orthopedics, is now being used for a variety of other purposes such as skin care and massage. By developing similar materials, various new products such as ultrasound gel (for medical use), feminine wash, moisturizer, lubricant, and hand sanitizer are being produced. In particular, international buyers, who have recognized the effects of Paraffin, are gradually increasing their order of paraffin wax.

Accordingly, Inntop will continue its efforts and re-investment in research and development to become the best company in the world.

Inntop Co., Ltd.

CEO Seo Hwan seok

History of Inntop

2001~2004

- 2001. Feb.** Established Inntop Co.
- 2002. Jan.** Established the Hasa Changdong plant in Hanam City

- Jan.** Selected as an export company by the Small and Medium Business Administration

Paraffin Skin Care Wax

Specification

- 1BOX : 6LBS
- Weight : 2.7kg
- Size : 18cm×29.5cm×11cm

Product Type

1. For physical therapy use
2. For skincare use
3. For pack and massage us

Advantages of a Paraffin Bath (Supply of heat, moisture, and nutrition)

- People whose hands and feet feel numb and cold from too many household chores
- Office workers who want to de-stress and relieve fatigue
- People with stiff joints in their hands and feet
- People with fragile nails
- Women who wish to keep their hands and feet soft and beautiful
- Middle-aged and elderly people with dull pain in wrists and ankles
- Tired finger joints from excessive computer use
- Cracked heels and rough soles

Application

This aroma paraffin wax offers moisturizing effects through three types of aroma oil. As this product uses refined paraffin, it is convenient to use, and gentle on the skin while softening and moisturizing. The hot pack type is particularly effective for treating fingers with chronic rheumatoid arthritis, as well as finger joints, foot joints, injuries on hands, muscle cramps after nerve root grafting, inflammation, injuries from exercise, and dry and chaffed skin. (For physical therapy use)

Paraffin Bath(Praffin warmer)

Specification

- Model Name : NZ-100
- Rated Voltage : AC220V, 60HZ
- Rated Input Power : 150W
- Weight : 5kg
- Size : 365cm × 230cm × 210cm

Product Type

- Paraffin Bath, Paraffin WAX 6LBS,
Hand and food gloves 1,
Vinyl pack

Principle of products

Paraffin therapy is a new skin care therapy that uses paraffin's heat conductivity properties such as thermal insulation, moisture protection, and nutrition supply. The principle of heat therapy encourages smooth blood flow and increases body temperature by promoting perspiration. It helps to discharge waste through sweating. Various oils contained in paraffin for heating therapy increase moisturizing effects in the skin, and promotes blood circulation and nutrition supply through heat, which is particularly beneficial for the prevention of dry skin and wrinkles. Paraffin massage was once done only at skin care clinics, but due to the development of a new product, bridal beauty care, convenient and specialized skincare are now possible in comforts of home.

Ultrasound Gel

Specification

- Weight: 5kg
- Size : 19cm × 23cm × 21.5cm
- Product Composition : 5kg
(1 container / 250ml)

Substance

Glycerin, Carbomer, P.G

Ultrasound Gel and Substance

When taking an X-ray or ECG (electrocardiogram), the porcelain part of the device, which generates sound waves, is in close contact with the skin. Therefore ultrasound gel plays an auxiliary role for the device by helping deliver the sound waves. The gel also supplies moisture to the skin and prevents skin dryness.

To Use

Place an appropriate amount of the gel into a 250ml container, and boil. Apply gel to the area to be treated by squeezing the container.

Hot Gel

Specifications

- Weight : 5kg
- Size : 205mm × 205mm × 210mm

Substance

Glycerin, carbomer,
tricethanolamine, capsicum
tincture, hyaluronic acid, scoparin

Characteristics

The hot gel promotes the skin's biological functions and blood circulation through the heating effects of the gel obtained when massaging onto the skin. In addition, it helps skin regeneration and relieves muscle cramps by improving the flow of the magnetic fields in the human body. It also firms up the waist, buttocks, and abdomen area where elasticity can be lessened as fat accumulates in the areas.

Benefits and efficacy

PExcess fat removal, waste matter removal, moisturizing chaffed skin, relieving muscle cramps. When massaging the entire body, each session can reduce body weight by 1.5kg~3.5kg. In the case of partial obesity, particularly for the thigh area, one session can reduce the size by one inch.

To Use

- When using during a sauna, wrapping the area with vinyl can increase effects by 2-3 times.
- Applicable Areas: Forearms/ feet, thighs, calves/ abdomen, waist/buttocks
It can be used on each part of the body. In particular, foot massage can discharge waste matters from the body.

Bio Grip

Materials

Bio Silicon, Red clay balls

Product Type

1. For physical therapy use
2. For skincare use
3. For pack and massage us

Characteristics

- Excellent acupressure effects through raised nodules (Press acupressure points on both palms)
- Excellent grasping effects and flexibility by charging the grip with soft red clay balls
- An ergonomically-designed oval shape grip that conforms to the shape of the hands

Cautions

- A heating sensation during use is a normal phenomenon generated by the gripping movements.
- The inside of the product is charged with red clay balls.
- Be careful not to puncture the product with a sharp object.
- Do not heat it in a microwave oven.
- This product is not for medical use.

IZEN Body Slimmer

Create a slimmer masterpiece body

Reduce the thickness of subcutaneous fat layers!!
Improve cellulite!!
Izen body slimmer [IBS-100]

A wise choice for a slimmer body

Information

- Weight : 228g
- Size : Width 10cm × Length 13cm
- Material : ABS, Silicon
- Color : White and beige

Product Descriptions

You can feel your body lose subcutaneous fat layers and cellulite after 4 weeks by using the slimmer twice a day for 3 minutes on each part of the body.

- Stroking/squeezing hand massage effects

Stimulate each cell with strong motion to dissolve subcutaneous fat layers and cellulite.

- Intensive stimulation effects

- Improve your biological environment by increasing the temperature of the skin.
- Stimulates peripheral blood vessels, improve blood circulation, and accelerate waste discharge by improving metabolism.
- Relieve swelling and tense muscles

Cool Muffler (Ice Pack)

Information

- Material : PVC(PE)+Polymer Gel (Ice Pack)/ Cotton100% (Muffler)
- Color : Sky Blue, Green

Substance

Glycerin, Carbomer, P.G

Product Characteristics

- Place cooling gel in the harm-free PE pouch, and then place the pouch in the cotton muffler.
- Portable cool muffler needed for summer season or to prevent drowsy driving
- Convenient cool muffler that cools the neck when wearing in hot weather

To Use

- Keep the muffler in a refrigerator for one hour before use
- Wear it while driving or for outings in hot weather

Cool Muffler (One Piece)

Cooling one-piece water muffler

No need to refrigerate!
Put it in cold water for one minute, OK!
In running water, OK!

Information

- Size : 5×102.2cm
- Weight : 12g (before water absorption)
156g (after water absorption)
- Manufacturer : Inntop
- Country of Origin : Korea

Characteristics

- If placing this ice muffler in water, nontoxic powder absorbs moisture and expands.
- Non-toxic powder absorbs moisture 30-50 per particle, and maintains cooling effects for an extended period of time as the moisture evaporates.

Cool Eye Mask

Product Characteristics

- Its soft-texture is gentle on the skin
- Relieves fatigue, swelling, and eye pain
- Portable and convenient to use
- Easy to store and carry for travel because of its soft and flexible form
- The velcro on the back side allows for adjustment to the circumference of each user's head size.

Product Size

- Circumference : Maximum: Approx. 65cm / Minimum: Approx. 40cm
- Eye Holes : Width: 3.3cm / Height: 2cm
- Thickness : Approx. 1cm

Hot Muffler Refill Pack

Product Characteristics

- Place the hot pack in its dedicated muffler for use.
- Open the hot pack, and rub the pack 3-4 times to generate heat before putting it in the muffler.
- It can be used for any part of the body, and is particularly good for the neck, wrists, shoulders, knees, and joints.
- Ideal for a body aches, colds, and to warm up the body.
- Use while golfing, fishing, inline skating, skiing, and snow boarding
- Use during winter training for police and military officers
- Good for use at schools and workplaces

Pocket Hot Pack

Product Characteristics

Good for use during the cold weather season when enjoying winter leisure sports such as fishing, golfing and skiing

- Good for body aches and cold muscles
- Ideal for winter training for soldiers and police officers
- When using a hot pack is inconvenient, place it in a zipper pack
- Can use for partial hours
- A total of 16 hours of continuous use

Product Size

- Circumference: Maximum: Approx. 65cm / Minimum: Approx. 40cm
- Eye Holes: Width: 3.3cm / Height: 2cm
- Thickness: Approx. 1cm

Tourmaline Rechargeable Ondol Heating Pad

Product Characteristics

- A portable ergonomically-designed pad. Usable for approximately two hours with a 5-8 minute charge
- Far infrared radiation emission, heating effects, overheating prevention device installed, electromagnetic interference (EMI) Test, bio ceramic material used

Product Size

- Composition: Ondol-type heating pad, pouch, belt-style pouch, power cord
- Rated Voltage/ Power Consumption: AC 220V, 60Hz / 500W
